Grenadier Models 1993 Catalog

Your friends at **Grenadier Models** thank you and welcome you to our 1993 catalog!

This catalog is quite a departure from past **Grenadier** catalogs as every miniature currently available through your local game / hobby store is depicted within. White metal miniatures are beginning to be recognized as collectibles as well as gaming figures, so this catalog includes some products which will be phased out during the course of 1993. Collectors can use this catalog to keep a visual record of retired pieces. We hope this year will be an enjoyable one for us all.

Our Environment

It is important that those of you who are concerned about our environment know that Grenadier pioneered multi-use packaging in our industry back in the 1970s.

Grenadier uses recycled paper whenever possible in our packaging. We designed our boxed sets so that the boxes and foam liners can be used as figure storage and carrying cases. This foam, and that found in our blister packs, can also be used for packing material when you send packages. The foam can even be cut up and used when painting large figure or diorama surfaces for creating a stippled effect, like brick.

The clear blisters themselves have many uses. They make excellent water trays when you are painting your miniatures. They also are ideal for mixing together paints or two-part epoxy glue when assembling our "big babies" (like mammoths, a roc, giants, etc.). When dealing with our product packages don't just toss them out, try and use them for another job. You'll gain in the long run, and so will our planet.

Fantasy Warriors

Plastic Action Sets *By Mark Copplestone*

5901

Bred for war, the Orc warriors are despoilers and polluters of everything that is good. Spearheaded by fierce assault troops, allied with all that is evil, their brutal armies march on. Although unstable in battle, their many different weapons make them a threat to all they encounter.

5902

The proud race of Dwarves looks out from its forbidding, mountain strongholds, ready to fight for gold, glory, or revenge. Slow moving they may be, but disciplined and well armored Dwarves often fight to the last. Their accurate crossbows and fearsome axemen can help make their enemies pay heavily for any attack.

Fantasy Warriors Miniature Game System

(Designed for use with 25 mm miniatures)

Slavering hordes of evil beings clash with staunch defenders of the Right. Grenadier's Fantasy Warriors Miniature Battle Game can be used to expand any RPG to 3-D action, or can be played alone as a table-top miniature combat game. Hundreds of support products make this one of the most expandable, and popular, fantasy miniature products today. The game comes with 102 25 mm plastic miniatures of dwarves and orcs which require minimal assembly.

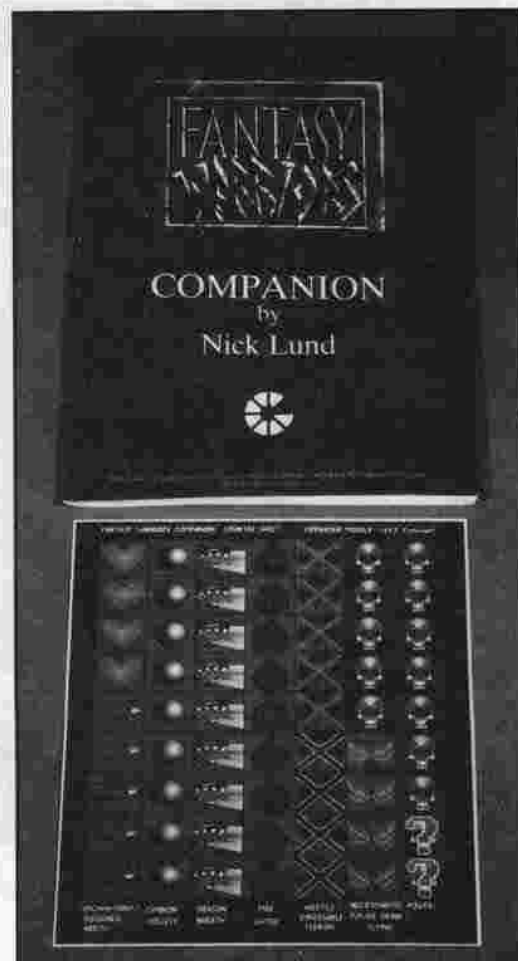

Fantasy Warriors Companion

Following on from the success of Grenadier's Fantasy Warriors fantasy battle game, this essential complement adds new dimensions of exciting game play.

In the **Necromancer** section, complete rules are provided for the fearsome undead army covering everything from menacing liches to awesome undead monsters.

Mercenary, the second part of the book, introduces a host of new features including speeches, firewater, poisoned arrows, battlefield equipment, tricks, mercenaries, artillery, huge creatures and new spells. New individuals are detailed such as the paladin hero, the destroyer hero, the marksman, druids and the amazon enchantress. Among the many new army lists that are presented are the undead, amazons, mercenary half orcs and horse-raiders, mercenary dragons and giant and high elves. In addition, all the original army lists are updated and expanded.

Finally, there is a section updating the Fantasy Warrior rules and hints on the conducting of multi-player games.

Fantasy Legends Blisters. (25 mm)

One of the newest, and most popular, of Grenadier's fantasy lines, this line deals with characters and monsters of truly legendary fame. Fantasy Legends is designed to support our Lost Lands Fantasy Concept Small Box Sets, and so can be used for both RPGs and miniature combat games alike.

Nightmares Blisters. (25 mm)

For all you horror and fear fanatics out there, Grenadier has developed a special line based on the Nightmares our artists dream. Intrepid individuals that venture into the unknown, twisted terrors which await them, even deadly locales in which to set the action. This fun series of blisters offers something for everyone in the way of frightening figurines.

Grenadier's Coming Attractions

Grenadier has long been recognized as a leader in fantasy gaming miniatures, with almost two decades of experience behind us. In 1993 we take another innovative step by combining all of our fantasy titles in one encompassing fantasy concept called the **Lost Lands™**. This overview allows us to coordinate the different lines in a coherent fashion so that they are all different, yet still usable by most fantasy gamers. Our current lines will continue with their same purposes, but under the guiding auspices of the **Lost Lands™**, such as **Fantasy Classics™** offering the best of past fantasy miniatures, **Fantasy Warriors™** offering appropriate miniatures for both role-playing and battle game units, **Julie Guthrie's Personalities** offering individual characters, and so on. We are very happy to announce the return of the **Grenadier** small boxed sets this year with our **Lost Lands™** 3000 series, specializing in character parties and creature tribes. **Fantasy Legends™** will remain a blister line in 1993, but it now specializes in **Lost Lands™** miniatures which will support and expand our small boxed sets. And that's not all that's new for 1993.

Dragonlords: The Game™ fantasy boardgame will be winging its way to you soon, along with its supporting figures in the **Dragonlords Mini-metals™** blister line. The **Dracula's Revenge™** horror boardgame is also new this year. It is supported by our **Nightmares™** blister line, which offers white metal miniatures designed for use in all games dealing with elements of gothic, fantasy, or modern horror. Our new **Warlords™** blister line offers 15mm fantasy army miniatures for those games which deal with fantasy action on large military scale.

And our final new game for '93 ... well, we're not going to tell you what it is (we have something coming up that will take you by surprise). Suffice it to say that it is designed by our **Grenadier United Kingdom** resident genius **Nick Lund** (who created our popular **Fantasy Warriors Game™**). It will be an exciting tabletop game which uses tiles in its system. That's all we're going to say right now! Except that we're sure you're going to love it.

So, that's a quick overview of what we plan that's new or ongoing in the Grenadier tradition. We value your comments and suggestions, so please write us and tell us what you think we should be producing for your hobby. Again, write to:
