DEDICATION

This book is the culmination of the efforts of one man, and his determination to excell, over a period exceeding four years, to list and illustrate these thousands of figures available to the modeler/gamer. It is to that man that this book is dedicated --- Thanks, Roy!

RNL 13-100 War Eagle (Boxed Set)

## INTRODUCTION

Welcome to THE ARMORY'S first "BUYER'S GUIDE TO FANTASY MINIATURES."™ Over three years in planning and development, it is really three books in one, totalling over 200 pages.

Book I - CHARACTER CLASSES - computer generated detailed breakdown of all Fantasy and Science Fiction Miniatures complete with Manufacturer, Item Number, Description, Scale (if other than 25mm), and Suggested U.S. Retail Price.

Book II - What to Buy - Twenty-eight different lines of Fantasy and Science Fiction Miniatures and accessories. Approximately 2,200 items (even we lost count) with over 2,000 illustrations. Detailed product listings by manufacturer, fully illustrated, coded for availability. Complete with the Manufacturer, Item Number, Description, Unit Packaging, and Suggested U.S. Retail Price.

Book III - Where to Buy - A detailed listing of retail shops within the U.S. and Canada as well as foreign countries. This list is alphabetic by state, territory or country, then by city, complete with store name, address and telephone number. We've also included the name of a contact person, usually the owner or manager, for you to talk to.

The Glossary and the Character Class Lists will be the backbone and primary sources of information to be found in this book. Use them Imaginatively!

Example: A 15mm Dragon will make a useful addition as a 25mm Baby Dragon or the reverse is true of a 25mm figure as a Giant in 15mm scale.

Mixed Figure Sets are just that - different types of characters mixed into one set - unclassifiable under any conceivable system, while Miscellaneous Creatures are also unclassifiable (except as such), but due to the fact that there are so few of any one kind to make a separate classification; it's inhabited by some weird and wonderful beasties. Your curiosity will probably drive you to look up a lot of 'em, just to see what the designers have come up with.

You will appreciate the versatility of browsing through Books I & II; looking into a manufacturers complete line or making your selection based on classification of figure. To give an example, there are 96 Dragons listed by Character Class. The coverage is extensive, the ASGARD listing consists of 19 pages, RAL PARTHA contains over 20 pages of detailed information. If you need a Female Dwarf, there are just three! If you require a Slime, Blob or Jelly to inhabit your darkest, dankest dungeon, there's such a classification. There's even a classification for Debris, Decor & Furniture for Dungeons & Battlefields, if such is your requirement.

We had the fun of putting this catalog together, we hope you enjoy the result of our effort.

## Information To Help You Use This Guide

Manufacturer Name and Range Designation are to be found in the upper right-hand corner of each page, along with the most recent revision date of that page. All information on a page contains as current and up-to-date a listing as a manufacturer can provide at publication date. We sincerely regret any errors or omissions but must disclaim any responsibility for changes in Item Numbers, Discontinued Items or Price Changes made by a manufacturer after press time.

PRICING - All prices listed in this volume are quoted in U.S. funds and by reason of the nature of the industry are subject to change without notice.

PIECE COUNTS - This number may indicate the number of pieces to be assembled or the actual number of individual miniatures in a package. It is to be considered advisory only.

CODING BLOCKS - There is an "Explanation of Codes" block at the bottom of most pages. Please pay close attention to these codes. Some items are in limited supply or are not yet released and are so coded.

PAGE NUMBERS - The page numbers in the "what to Buy" (White Pages) section are part of a different numbering system from THE ARMORY'S Master Buyers Guide. While this book's page numbers are not sequential, you will find them to be helpful as a reference guide.

HERITAGE USA and MARTIAN DEVELOPEMENTS are out of business and MINIFIGS has discontinued their "World of Greyhawk" range. However, many retail shops still have these figures available. For this reason, they are included in this volume.

PLEASE NOTE: Any line of figures may be discontinued at any time so don't put off purchases too long!

# ALL ABOUT SCALE

The "Little Tin Soldiers", first thought of as toys have over the years developed into a major collector's hobby.

The firm of Ernst Heinrichsen of Nuremberg, Germany is generally credited with the idea of manufacturing to a common scale. By the time Fantasy Role-Playing became popular, the matter of scale had been well established for both European and United States manufacturers.

Scale is generally expressed in millimeters and the accepted method of measurement is from the ground to the eye level of the miniature. The reason for this is to furnish a useful point of reference as hair styles and head pieces are not uniform in height.

The most popular fantasy scale, by a wide margin, is 25mm with the average foot figure standing an inch tall. The newer 15 mm scale is gaining a number of fans due to their lower cost and the fact that some games require the smaller figures to fit into the format of space allowed on the playing board or ship deck plans (as in science-fiction games).

Your choice of scale will depend on a number of factors. To mention a few;

1. What size figures are being used by your fellow gamers?
2. What is available in your local shops?
3. Your own personal preference is of prime importance.
4. Your budget (As mentioned, 15 mm figures cost less).
5. What game system is being used? (The most popular science-fiction scale is 15 mm.)
6. Your ability to paint in small detail could be a factor.
7. If you are using accessories, the scale of your figures could be governed to fit buildings, floor plans, grids, maps, etc.

If you are buying figures to paint for a collection rather than playing pieces, you must also consider such things as space available, detail of castings and, most important, what pleases you!

Collectors have a preference for larger scale figures. The 54 mm up to 90 mm scales are popular primarily for reasons of more detail available in the castings and additional painting skills can be lavished on a larger figure.

All in all, the scale you pick will be governed by a blend of factors. The choice is yours!

ARMORY BRUSHES are designed to three quality levels and available in three price ranges to fit the needs and budget of any miniatures painter.

- ★ Series 10 - Beginners Grade - Red sable
- ★ Series 20 - Intermediate Grade - Russian Red Sable
- ★ Series 76 - Top of the line - Kolinsky Red Sable

The most valuable hair for artists brushes is taken from the tail-hair of the kolinsky, a red sable found in Siberia and the Republic of Korea. This hair is noted for it's special qualities; strength, snap, spring, resiliency and fine taper for a needle point. Red sable is also almost irreplaceable for use with any water-based media, such as ARMORY PAINT.

HEROIC FANTASY MINIATURES from HERITAGE USA

Robert E. Howard's CONAN THE BARBARIAN tales are among the most loved and best selling adventure works in history. Now, with the release of the major motion picture, Conan, Heritage creates the only official Conan line of metal miniatures. These figures authentically capture the heroism of Howard's Hyborian Age. They can be used with any fantasy or fantasy role-playing rules. In early 1982 Heritage will bring out a special World of Conan rules supplement specifically for them.

## 15mm Miniatures

Approved For Use With

**TRAVELLER™**

### Science-Fiction Adventure in the Far Future

Darned clever, these Martians! First they come up with the OGRE line of Microtires, then it was boxed adventure figures. NOW they've got something NOBODY else has; the only authorized TRAVELLER™ miniatures!

For true, Terrans. A whole line of incredibly detailed 15mm figures especially designed for TRAVELLER™ adventures. Thugs and ruffians, aliens and Imperial Marines, adventurers and more.

You might think it was too good to be true, but it is. (Would a Martian lie?)

After all, they're only metal...Martian Metal

## YELLOW PAGES - WHERE TO BUY

Here is a list of the names and addresses of stores within your area who stock fantasy miniatures and who can help you with your selections. Most dealers are very willing to "Special Order" any item not normally carried in stock.

Whenever possible, we strongly recommend that you purchase from your local game-specialty store or hobby shop for seven (7) important reasons:

- (1) Avoid disappointment -- see your choices first-hand
- (2) Avoid delay -- get same-day delivery
- (3) No minimum order -- buy as much as you like
- (4) Be your own postman -- avoid freight charges
- (5) Meet fellow gamers -- learn of local clubs and special events
- (6) Easier return of manufacturer defective goods
- (7) Support local businesses

The hobby game industry is built on the special knowledge and inventory investment of your local merchants who welcome your visits year-round.

### POLY-C\*

The best light weight economy sheet having excellent clarity and strength. Almost as tough as polyester. It has excellent dimensional stability and scratch resistance. Recommended when economy and high performance are required.

### CAST ACETATE-CLEAR

The historical standard of the office supply industry, and the type in most general use. It provides excellent clarity and good life expectancy. Good tear resistance, scratch resistance and is used by stamp collectors and for valuable paper protection.

## A GUIDE TO THE SELECTION OF SHEET PROTECTORS

Here are some of the characteristics you should look for:

- They should have the strength and ability to perform under your conditions of use.
- They should be able to increase the capacity of ring binders.
- They should have a clarity and scratch resistance to provide clear viewing of the materials being protected.

Check the characteristics of these Sheet Protectors offered by

### MYLAR®/POLYESTER-CLEAR AND MATTE

The best all-purpose protector for today. It is almost impossible to tear. Possesses excellent see-thru clarity. Increases ring binder capacity because of its thinner gauge. Practically indestructible. Gives a long life expectancy under hard use. Popularly priced.

## ACETATE IN SHEETS OR ROLLS

Enduring, clear, see-thru protection for catalog sheets, documents, photographs, etc. Wide variety of sheet sizes for every application from large maps and blow-ups to small file-card sizes.

### CLEER-ADHEER\*

It's so easy to use Cleer-Adheer\* super-strong transparent Mylar® pressure sensitive laminate sheets. Provides a crystal-clear, see-thru transparency over everything it is applied to. Gives water-proof, tear-resistant, permanent protection. And you can even type or write-on matte finish Cleer-Adheer\*

Note: Cleer-Adheer\* provides a permanent lamination. Surface to be laminated should be smooth, flat and clean. Air should not be trapped between the Cleer-Adheer\* and surface being laminated.

# Are You A Cold-Blooded Adventurer? Try Our Reptiliads!

Introducing the Reptiliads, a nation of lizard men, wandering the world in search of experience and riches to take back to their impoverished homeland to save it from domination by the orcs. Fiercely proud and independent, this ancient race has dwindled in recent years until rediscovered by the scholar Ossian.

His book is now available describing this remarkable tribe. Our designer has prepared miniatures of their warriors and these may be added to your campaign.
